

IN THE DRAWINGS:

Submitted herewith are replacement sheets for Figs. 1 and 3 incorporating revisions to further shown the falling direction of molecules of the liquid crystal display unit and the vertical orientation film, as recited in the claims.

REMARKS

In the previously filed response dated May 21, 2007 to the Office Action dated March 21, 2007, applicant responded to the objection under 37 C.F.R. §1.83(a) by pointing out the support in the drawings and in the corresponding description in the specification for the falling direction of molecules of the liquid crystal display unit recited in the claims.

By this supplemental response, applicant submits herewith replacement sheets for Figs. 1 and 3 to which have been added arrows to further designate the falling direction of molecules of a liquid crystal display unit in the vertical orientation film, as recited in the claims. Similar types of arrow designations are shown in Fig. 4 for another embodiment of the liquid crystal display unit of the invention.

In view of the foregoing, applicant respectfully submits that the objection to the drawings under 37 C.F.R. §1.83(a) has been overcome and should be withdrawn.

Accordingly, favorable reconsideration and passage of the application to issue are respectfully requested.

Respectfully submitted,
